Year One Toy Extravaganza

Monday 11th September 2023

Dear Parents

As part of our learning as infant historians, we are going to be learning about toys in our living memory, from toys that our parents and grandparents would have played with, to toys we play with now.

In order to set our topic off with a WOW, we are inviting children to bring in one of their favourite toys into school.

This however, must not be a games console (switch etc) or something that is expensive or precious. We would love toys to come in that children cherish and enjoy playing with but we are conscious that we don't want anything to get lost or damaged. Please can toys come into school in a named carrier bag.

If possible, it would be nice if children could bring a toy that has been a favourite for quite a while or one that they think reflects their interests or personality. This will make their learning special and enjoyable.

Please can children bring these into school on Wednesday 13th to stay in school until Friday 15th. We will send the toys home at the end of day Friday. As space is limited, please don't send in anything large.

We cannot wait to see all your toys!

The Year One Team 😊
